CITY WINS WATER WORKS SUIT IN CIRCUIT COURT SATURDAY

Plaintiff Announces Intention of Going to Supreme Court With Case.

ANOTHER VICTORY FOR THE CITY OFFICIALS

Court Unanimous That Bonds Had Been Legally Offered For Public Sale Before They Were Offered By Officials at Private Sale---Court's Order Suspended One Week.

The Circuit court Saturday morning decided the Vadakin case in a legal and able opinion handed down by presiding Judge M. H. Danahue of New Lexington.

The matter before the court was a motion to dissolve the injunction which was granted by the Common Pleas court when the case was first brought, restraining all the city officers from making any contract to expend the proceeds of sale of the bonds sold for water works purposes, or to pay the interest due thereon and restraining the purchasers of the bonds from selling them to innocent purchasers.

The Common Pleas court had dissolved the injunction and Mr. Vadakin appealed to the Circuit court. The case was fully heard upon the facts, the trial having occupied two days and a halt.

The decision of the court announced Staurday morning covered all the issues made in the case.

The first matter decided was the only matter in the case in which the judges were not unanimous. It was contended by the city officers that the suit was not brought by Vadakin in good faith for the protection of the interests of the city, but was in fact brought for and in behalf of the Water Works company, whose interests were hostile to the city, and the question raised by the court was, can or will the court inquire into the motive which underlies the case and sustaining the action if it has merit, contending that the motive was prompted by the bringing of the case.

Two of the judges held that if Mr. Vadakin was in fact a figurehead for and on behalf of the Water Works company, that the court would dismiss the petition without any inquiry into the merit of the case and not considering the question of the facts as to whether or not Vadakin was a mere figurehead for the Water Works company.

The court found that Mr. Vadikin was procured by Mr. Veach to bring the action for and on behalf of the Water Works company, without any intention of bringing the same for the benefit of the city, and that the interests of the Water Works company were hostile to the interests of the city in a legal sense and that the action was not therefore brought in good faith, and that the court was justified in refusing to consider the motives of the case. To this part of the decision Judge Taggart dissented, holding that if any proceedings complained of were illegal court would grant the relief without reference to the motive which prompted the beginning of the suit.

Notwithstanding the above facts the court decided the case upon the motives and were unanimous in deciding in favor of the defendant and against the plaintiff.

One of the claims made by Mr. Vadakin was that the mayor and auditor and finance committee had no authority to make a private sale of the bonds, that the committee had to sell directly in order to make a sale. The court held that although this was the law before the adoption of the new municipal code, that this was changed by the enactment of Section 97, which provided that the bonds should be sold under the direction of the Mayor and such other officers of the city as had control of the matter, that this was sufficient to justify the action of the city officers.

In concluding this sale without referring the matter to the council and that this action was straight by the provision of Section 123 of the code which provides that the functions of the council are purely legal and that therefore the mayor, auditor and finance committee were the proper parties to act in the matter.

The court was also unanimous in holding that the bonds had been legally offered for public sale, which is a condition precedent to their being offered for sale at private sale.

The court held that the city officers held them legally for sale up to the point that the bids were received and the injunction against the sale of the bonds was served; that the purchasers had the legal right to obtain them at any time before they were accepted by the city.

The court was also unanimous in deciding the city officers' action as being in good faith in the matter without any corrupt or improper motive and in their judgment for the best interest of the city.

On the question as to whether or not a notice served upon the city solicitor before bringing this suit, is a legal and sufficient notice in Section 1778, Revised Statutes, the court held that it was not, for the reason that the city solicitor was given but two minutes by the Water Works company to decide whether or not to commence the action.

The court held as a matter of fact that no notice in this case was necessary for the reason that the solicitor had directed the officers of the city to pursue the course they took in selling the bonds.

The judgment of the court was therefore that the injunction should be dissolved.

After considerable discussion this order was suspended for one week to enable Mr. Vadakin to appeal to the Supreme court.

GOT WHAT HE WANTED.

NO MORE FACTORY BUILDINGS, SAYS PRESIDENT W. W. WEHRLE

Foundryman Points To Lack of Protection Against Fire In the West End.

COMPANY MAY MANUFACTURE RADIATORS

But Mr. Wehrle Says They Will Not Be Built Here---Head of Big West End Industry Denies Several Rumors That Are In Circulation About Town---Making Six Hundred Stoves a Day.

For several days past, many rumors have been floating over Newark concerning additions, improvements and the erection of new buildings at the Wehrle foundry in West Newark. The rumors originated from the fact that members of the firm of Sears, Roebuck & Co., of Chicago, have visitel the city during the past few days.

A reporter for The Advocate interview Mr. W. W. Wehrle at his office, Saturday morning, and obtained from him an emphatic denial of each and every rumor. Mr. Wehrle said: "I cannot control the circulation of rumors, I can only deny their truthfulness."

I can only deny their truthfulness."

In regard to the reported erection of a new building for the manufacture of radiators, Mr. Wehrle stated that the company is considering the matter, but that the factory will not be located in Newark. At this point, Mr. Wehrle took occasion to express his displeasure on matters concerning the fire protection in the West End. He said: "I don't intend to do anything more for the city of Newark. Any new building I have to put up, other than those necessary to handle the output of our present industry, will be erected outside of Newark. We are way out here from the city and have practically no fire protection. I may have to tack on an addition to my wareroom to handle the output of the present factory, but no new buildings for new departments will be put up in Newark."

A rumor to the effect that the T. & O. C. Railroad would soon run a branch into Newark to get a part of the immense shipping business of the Wehrle plant, has been afloat for several days. Mr. Wehrle said: "I would like to see the T. & O. C. come in here, but I also would like to see the Big Four, the Lake Shore and all the roads in the country run into Newark. But as far as the T. & O. C. running a branch into Newark for our accomodation, I know absolutely nothing."

Mr. Wehrle stated that the visit of the Chicago parties to Newark was a regular occurrence; that he saw some members of the Chicago firm every month, either in that city or in Newark.

The Wehrle company will, within a short time, be melting 200 tons of iron daily. Six-hundred-stoves are being made daily and the new safe department which was recently started, is making a dozen safes a day.

MEDAL AWARDED

To Miss Lavina Steele of Iowa for Saving Life of George Hill, Who Was Drowning.

Pittsburg, April 15.—The report recently given out that the Carnegie hero fund had awarded a medal to Miss Lavina Steele of Des Moines, Iowa, for saving a young man, George Hill, from drowning, is confirmed by information from that city that a personal representative of Andrew Carnegie had investigated Miss Steele's act of heroism and made a favorable report. The young woman who was recently appointed assistant state librarian of Iowa, rushed to the rescue of Hill while the latter was on the point of drowning, having broken through the ice while skating. She succeeded, after a desparate struggle, in saving his life.

Situation Grave in Provinces---Speculation as to Destruction of Russian Baltic Fleet.

London, April 15.—Today's advices from Tokyo and St. Petersburg and private advices received here to the effect that no news was received today of the whereabouts of the Russian and Japanese fleets. It is claimed in some quarters that Togo is trying to evade a sea fight with Rodjestvensky.

St. Petersburg, April 15.—The imperial rescript recently addressed to the minister of the interior, M. Bouligan, creating a special commission under his presidency to discuss questions relating to peasant tenure of lands, is a direct recognition of the grave peril involved in the spreading peasant agitation, which threatens not only the big estates but the imperial domains. The instructions in the rescript to work out a system clearly marking off peasant land from the land of other owners "in order to inculcate in the people a perception of property ownership," amounts to an imperial refutation of the stories current among the peasants that the emperor had decreed a new division of the land. It is feared, however, it may have exactly the contrary effect to the one desired among the ignorant peasantry, and that shrewd agitators will be able to employ the rescript bearing upon the general subject of the increase of peasant lands as being a confirmation instead of a denial of the reports that the agitators had previously circulated about the emperor's intention to redistribute the land. Two methods of relief are proposed by the rescript—the purchase of additional land by the aid of a peasants' bank and the colonization of Siberia.

In receiving a delegation of Moscow workmen, Finance Minister Kokovsoff gave notice to the workmen of Russia that a government commission is now formulating legislation to remedy the greater part of their grievances, including state insurance against sickness, accident and age, and for shortening the hours of labor; abolishing the prohibition of unions and criminal punishment for strikes and for the establishment of an industrial court in which employers and employed shall be represented. The minister pointed out to the delegation the impossibility of elaborating in a moment legislation of such weighty and farreaching character. He declared that the energy with which the commissioner is working gave it the right to take sufficient time for the preparation and consideration of the proposed laws, and said that industrial disturbances such as have occurred hamper instead of furthering the work.

Baltic Fleet In Good Shape.

London, April 15.—No news throwing light on the movement of the fleets of Vice Admirals Rojestvensky and Togo has been received here, but according to the statement made by one of the doctors on board the Russian hospital ship Oral at Saigon the ships of the Baltic squadron were going to Vladivostok. Tuesday being the last day the Russian vessels were sighted, it is the general opinion in London that Rojestvensky has changed his course, possibly to the eastward, as otherwise it is considered certain the fleet would have again been sighted by passing steamers. The correspondent at Hongkong of the Daily Mail telegraphs a report made by a steamer on April 11 that the Russian warships presented a serviceable and businesslike appearance.

Easter Riots Anticipated.

Warsaw, April 15. — Disturbances here are feared during the Easter holidays. Many people are leaving Warsaw, and accommodations in the sleeping cars to Berlin and Vienna have been engaged several days ahead. Strikes are reported at Lodz, Russian Poland, where the situation is causing much uneasiness. The trials of the persons arrested in connection with the January disturbances are now proceeding in the citadel behind closed doors and under martial law. It is understood that several of the prisoners have already received the most severe penal servitude sentences.

Telling of Methods Employed at Oberlin By the Trust to Crush His Business.

Oberlin, O., April 15.—The fight that S. G. Gibson, a local independent oil retailer, has been making against the Standard Oil company, has just been given renewed vigor by the fact that the government has taken a hand in it. The following letter from the Department of Commerce and Labor at Washington was received by Mr. Gibson this morning: "In a clipping from The Press of Cleveland, recently, it is stated that during December, on account of your purchasing oil from an independent manufacturer, a representative of the Standard Oil warned you not to buy any more oil from that manufacturer and finally declared war against you by cutting prices and establishing a competing delivery wagon. Kindly give full information with regard to the transaction; also, prices charged by the company to retail dealers in Oberlin before and since, and the result of the reported competition. (Signed) Herbert Knox Smith, acting commissioner."

Mr. Gibson says he will furnish the information fully. The Standard Oil wagon was discontinued from lack of trade. Mr. Gibson says his sales tripled last month. The Standard has sent out notice that it will put on a new wagon the first of next month, and it is expected that the war will be waged in earnest. Mr. Gibson has the support of the people, as in the case of "Mel" Hossler of Chardon, who won his long fight against the Standard Oil.

Thus far the Russian and Japanese fleets have not met, although the news of their doing so may be expected at any moment. The visit of the Russian hospital ship to Saigon, which led to the report that it carried wounded men, is explained by the fact that it had on board the seriously ill men of the fleet. It is probable also that its supply of medical stores was much depleted by the long voyage, and the needs of replenishing it in view of the expected battle was one motive of the visit to Saigon. Rojestvensky is apparently desirous of meeting the Japanese fleet, and is taking no precautions to hide his movements. These are doubtless well known to Admiral Togo, who is in a position to choose his own time and place for meeting his opponent.

CHARLES L. TUCKER.

Massachusetts Man Convicted of the Murder of Mabel Page.

Charles L. Tucker, who has been convicted by a Massachusetts jury of the murder of Mabel L. Page and sentenced to die in the electric chair, is a young man of twenty four years, while his supposed victim was forty. The crime proved one of the most mysterious and baffling with which the authorities of Massachusetts have had to do in some time. The murder of Mabel

CHARLES L. TUCKER.

Page occurred in her home at Weston, Mass., March 31, 1904. Miss Page was a quiet, modest, intellectual woman, who never had given offense to any one and who lived with her father, James Page, a retired business man; her brother Harold and a maid, Amy Roberts. She received a good education and when twenty years old was engaged to be married, but on account of opposition to their plans from Miss Page's family the lovers parted. He afterward married, but she seemed averse to the society of men and kept mainly within her home in the company of her books.

Tucker lived at Newton, near Weston, and is the son of Albert F. Tucker, a railroad employee. He had worked in boats on the Charles river and was fond of water sports. Several years ago his wife was drowned through the upsetting of a canoe.

Miss Page was found dead in her bedroom on the afternoon of March 31 by her father, and it was supposed she had committed suicide. There was a wound in her neck, and this was thought to have been self inflicted. When the undertaker came to prepare the body for burial other wounds were found in the back and chest like those made by a knife.

A note was found, which had apparently been written hurriedly by Miss Page, informing her father that his son Harold had been hurt and that she was about to go to the hospital to see him. Harold had not been hurt, and it is supposed that Tucker secured entrance to the house by telling Miss Page that her brother had been injured and then while she was engaged in preparations to leave, stabbed her and abstracted money from her purse. A knife in his possession whose blade fitted the wounds, and blood spots on his clothes, connected him with the crime, and other circumstantial evidence against him was found, on which he was convicted. His case has been appealed.

In case of Tucker's execution he will meet his death in the electric chair in the prison at Charlestown, Mass.

city as the "colored Demosthenes." He is president of a large colored Republican club in New York and has taken a prominent part in campaigns. He was formerly private secretary to State Treasurer A. B. Colvin and later was chief clerk of the New York state treasury department. He has had experience in work such as an internal revenue collector performs, as he has been collector of the revenue levied by the state of New York upon race track associations.

He is a member of the New York state Republican committee. It is said the president made the appointment after consultation with Senators Platt and Depew with a view to showing that he purposed to pursue the same policy in the north as in the south in respect to negroes and the federal offices.

Mr. Anderson has a reputation as a man of much capacity and intelligence.

LET NO TIME BE LOST

IN THE CITY'S EFFORT TO ACHIEVE CITY OWNERSHIP OF WATER WORKS.

Again The Advocate urges that immediate steps be taken by the city council and officials to stop further delay in the project of waterworks city ownership. It is said that the injunction case decided again today by the Circuit Court is to be carried up to the Supreme Court. This, of course, means further delay in the courts, but the city should not remain wholly inactive, waiting for the final decision.

To make the progress that is necessary in this important matter, the city should at once proceed to employ A COMPETENT ENGINEER to prepare new plans and specifications.

The present plans and specifications are not believed to be of value by the city officials and others familiar with them, and there is a necessity that new ones be prepared by a new engineer.

The Advocate's suggestion for an entire new system with the water supply from the South Fork meets with favor by many on account of the soft quality of the water, and the opinion that it would be better for domestic and all other purposes. But the suggestion needs investigation. First, the quality of the water should be demonstrated to ascertain whether it will pass the inspection of the State Board of Health. Second, the cost of such a system should be definitely ascertained, which can only be done by the employment of a competent engineer to prepare plans and specifications.

There has been some talk of purchasing the present waterworks plant at some round lump sum. But any such proposition must be submitted to a vote of the people for adoption. And herein again is an equal necessity for the employment of a competent engineer.

The people cannot vote intelligently on any such proposition without such plans and specifications as will afford some pretty definite information as to the actual value of the present plant and the cost of the extensions and improvements that will be necessary to add to it in order to make the plant fully up to all the city's requirements.

Any proposition for the purchase of the presnt plant submitted to the people at an election will be voted down unless the people are convinced that it will be to the city's advantage to make such purchase, and such information can only be properly ascertained by the preparation of plans and specifications by an amply qualified engineer.

The Advocate, therefore, urges immediate action in employing a thoroughly qualified engineer—the best that can be had for competency and integrity. Let no time be lost in the city's effort to achieve city ownership.

WHAT WHISKEY COSTS THE DRUNKARD

Cure the Drink Habit With Orrine and Save Money.

Whiskey drinking does not pay. Take the lowest possible view, without counting the loss of friends, the loss of business, the loss of manhood that comes to the drunkard; consider simply the actual money paid out and see what it costs in dollars and cents. Good authority states that nearly one-third of the wages of the laboring man goes over the bar. How much are you contributing? Figure up for one month how much you take from your wives and children and pay out in exchange for drink. The total will astonish you, and you will swear off.

Will-power alone will not cure the habit. Use Orrine, the only guaranteed cure for the habit. It can be used without publicity or loss of time. It strengthens the nerves, gives a good appetite and refreshing sleep. The cost is small, $1 per box. Orrine is sold and recommended by F. D. Hall, 16 North Side Suare, Newark, O. 2

From the old lion house, which was recently replaced by a magnificent building to which Lord Roberts has given his name, lions bred within its walls have been consigned to almost every quarter of the globe. Upwards of 200 cubs saw the light in the old lion house, and a sum of nearly $25,000 resulted from their sale to other menageries, both at home and abroad.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere, —seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

FACTS AND FANCIES.

Veilings to Be Much Worn—Summer Gowns Simple In Effect.

French veiling in the softest weaves is to be very much worn this spring. It comes in exquisite designs worked out by artistic designers in all the modish colorings.

A number of summer dresses will be joined together at the waistband so that there can be no danger of waist and skirt slipping apart. They are not princess by any means but bodice and skirt are simply joined by a band of embroidery or a plain piece of muslin, over which is worn the fashionable broad girdle.

Wide shaded ribbon belts are to be worn with wash frocks next summer.

For tennis an entire costume is much smarter than the tailor made shirt waist worn with a separate skirt. When a separate bodice is worn with the linen coat and skirt it should be made of the sheerest batiste and elaborately tucked and trimmed with lace.

DRESS OF ECRU EMBROIDERY.

With light flowered wash gowns very wide girdles are to be worn formed of three or four pieces of ribbon, each a different shade of the same color.

The dainty gown illustrated is of ecru all over embroidery. The top skirt ruffle is shirred to the daintily worked upper portion. The bodice has a gathered vest of mull and is otherwise formed of the embroidery.

JUDIC CHOLLET.

VANITY'S VISIONS.

A New Cotton Braid For Wash Dresses—Stocks and Girdles.

There is a new cotton braid for trimming wash dresses which has just made its appearance. The center is formed of a combination of braid and cross stitch and the edge is finished with featherstitch.

A popular spring skirt model has three flounces of embroidered material.

Dainty girdles of lace will be worn with summer frocks.

An important feature of the blouse is the stock worn with it. Straight bands of English embroidery with cuffs to match are a pretty style, while very new are the plaited ruffles of lace or lawn four or five inches deep placed at the lower edge of the band Sometimes the stock has a tabbed front with the plaiting arranged around it in a V shape.

Generally speaking, on the soft shirt waists a plain lace stock and cuffs

Influenza has been for some time past very prevalent in Germany, extending to horses, which are, in some instances, quarantined. The Frankfort News states that in 1890, when influenza was epidemic throughout Europe, many workers contracted the disease in three watch factories at Madretsch and a number died. At one factory at Madretsch, however, the disease did not appear. Investigations showed that oil of turpentine was used in the turning of the metals used for watch cases, and the oil becoming warm evaporated and the workmen inhaled the air laden with it. This seemed to protect them against the disease. Since then oil of turpentine has been always evaporated in that factory upon a stove, and not a case of influenza has ever occurred there.

HEALTH
is the
Most Important

In buying food-articles, you must consider several things: Economy, Results, Easy Handling, Reliability; but the most important is Health.

Health means everything. In clothes, furniture, etc., if the buyer gets a poor or imitation article, the only harm is loss of money. In buying food-articles, if imitations are supplied, there is a loss of money, and probably an injury to health—which is beyond price.

Remember these facts when buying baking powder.

Never was there such an enthusiastic gathering in Assembly hall as this afternoon, the occasion being the close of Miss Simond's Children Dancing class. The affair opened with a miniature wedding, which was a perfect imitation of a real wedding, and the scene was a most impressive one.

The hall was beautifully decorated and the bridal party took their place under a canopy of green, from which hung a wedding bell. The background was a bank of palms, ferns and apple blossoms. Promptly at 2 p. m. to the strains of the wedding march from Lohengrin, played by Mrs. W. W. Davis, the ribbon bearers, Kathryn Steinmetz and Orville Raylings, Elizabeth Claytor and Woolson Davis, dressed all in white, with pink sashes, formed the broad isle with pink ribbons, through which the bridal party advanced. First came the tiny ushers, in full dress suits, Donovan Lawhead, Roderick Miller, Lee Baird and Samuel Emery. Next came the maids, Mary Carl, Jessie Emery, Ruth Hirst and Margaret Moore, in dainty gowns of white with pink girdles and with wreaths of pink flowers in their hair, carrying huge bunches of ferns.

Then came the matron of honor, Ann Everett, who looked stunning in a long trained gown of white, with a bouquet of pink carnations. Next came the maid of honor, Thelma Mazey, a dainty bud, in pure white mull gown, head dress of feathers and a bunch of pink carnations. Preceding the bride came the smallest member of the party, Martha Grace Miller, dressed in white, with knots of pink ribbon and carrying the bride's ring on a white satin cushion.

Last of all, the dainty bride, Mary Elizabeth Fuller, a perfect picture in a bridal gown of white mull over silk, long train, full bridal veil, orange blossoms and carrying a bouqdet of white lilies. Her father, Edwin Stedem, escorted her to the altar and gave her hand to the groom, Theodric Neal, who, with the best man, Wilfred Rawlings, met the bride at the altar. Baldwin Dickinson acted as minister.

The picture was an impressive one. The party stood with bowed heads while Mrs. C. W. Miller sang, "O Promise Me." After the groom placed a circlet of gold on the bride's finger they marched around the room to the strain of Mendelsshon's wedding march, and took their places in line, for congratulations.

Following this the class of fifty pupils joined in the minuel, which was very beautifully executed. Then came the cotillion, which was very elaborate, and consisted of games and favor figures. The favors were dispensed by Miss Charlotte Neal and Miss Bertha Fulton. Refreshments were served by Mrs. Gray, and the Marsh orchestra furnished the music.

The Woman's Home and Foreign Missionary Society of St. Paul's Lutheran church met in regular session on Thrusday, April 13 at 2 p. m. The president, Mrs. Schindel, being absent, the vice president, Mrs. Josephine Beckman, led the meeting. The study of the religions of Japan was introduced by the leaders, Mrs. Mary Bartholomew and Mrs. Emma Vogle, and thoroughly discussed by several of the members. After the discussion dainty refreshments were served by Division No. 4.

GOOD THING

Is Proposition of Pigg & Williams, Says Geidel

SUPERINTENDENT OF CANAL

Tells How Farmers Go After Muck Taken From Bottom of Canal For Fertilizer.

Coshocton, O., April 15—"I regard the proposition of 'Squire Pigg and J. H. Williams of Newark, a very good one,' said Mr. Charles Geidel, superintendent of the southern division of the Ohio canal, to the Advocate correspondent here this morning. "These men are asking the state board of public works to permit them to dredge the canal from Hebron to Newark and also to dredge Buckeye Lake for the purpose of converting the deposits into fertilizer and I know from experience that this muck found in the bottom of the canal makes the very best of fertilizer. I have noticed that whenever the canal is dredged about Washington and Clinton that the farmers back their wagons up and haul the stuff away for use on their land. They all tell me that it enriches the soil better than anything they can use.

"It looks to me like the Newark men have a good thing in the fertilizer proposition alone, and besides this, it is known that the bottom of Buckeye Lake contains much hard wood lumber which will have a good market value."

Rumors are in circulation about town to the effect that the Toledo & Ohio Central railroad which passes through the western part of Licking county, touching at Hebron, Central City, Granville, Johnstown, and Croton, will be brought into Newark at an early date.

The growth of the city's manufacturing interests and the importance of this city as a shipping point were given as a reason for this action on the part of the railway company.

The Advocate telegraphed the general manager of the T. & O. C. company asking him to deny or affirm the rumor. The following reply was received Saturday afternoon:

Toledo, O., April 15—Message received. Do not know anything about project for road to enter Newark.

WHAT IS GOING ON IN THE FIELD OF SPORT

EXPERT CUE ARTIST DEFEATED

Dr. D. H. Miller, Jr., and Joseph Hupp Succeed In Winning From Weston, 100 to 91, at Hayes' Pool Rooms Friday Night---Large Crowd Present.

Expert Charles Weston, who agreed to defeat Newark's two best pool players 125 to 100, was himself defeated Friday night at the Hayes pool and billiard parlors by Joseph Hupp and Dr. D. H. Miller, Jr., both of whom are acknowledged fine cue artists. The score was 100 to 91. A large crowd was present.

The result of the game was a surprise and considerable credit is due to the two Newark men for previous to the opening of the game, Mr. Weston offered to bet $100 that he would win. This goes to show that he seldom meets two opponents who quit the game winners.

The first rack of balls was disposed of by Dr. Miller and Mr. Hupp, before Mr. Weston had a chance to take a shot, he having been forced to break the balls. Once at it, Mr. Weston resorted to a number of extremely difficult combinations and was loudly applauded when the ball called rolled into the desired pocket. The score was close all through the game and towards the last it looked as though the expert would win out but a streak of bad luck caused a scratch or two and the table was soon cleared by the two Newark men.

At the conclusion of the game, Mr. Weston gave an exhibition of fancy pool shots on the result of which have hinged many championship games. There is no doubt but what Mr. Weston understands thoroughly the action of pool balls on a smooth table, and he seems to have perfect control of the round spheres of ivory. Mr. Weston will give another exhibition Monday afternoon and evening at the Union Cafe, on the south side, and it is probable that he will meet the same two gentlemen in a game.

WILL TRY AGAIN MONDAY.

Mr. Charles Weston who was defeated in last night's pool game announces that he will play the same two men, Messrs. Miller and Hupp at the Union cafe Monday afternoon and evening. He is confident of winning and is willing to wager $50 on the result. After each game he will give an exhibition of fancy shots.

MANAGER GOODRICH ON HAND.

Manager Jack Goodrich of the Mt. Vernon ball team is expected in that city Sunday from Massillon. Manager Goodrich comes a week in advance of the other players who are to report there, to have the grounds put in first class condition before the season opens.

OPENING DATES.

Akron, O., April 15—The opening dates of the various teams in the independent baseball association are: Canton, April 30, with Akron: Homestead, May 1, with Zanesville: Massillon, May 1, with Canton: Youngstown, May 3, with Canton: Niles, May 24, with Youngstown: Newark, April 30, with Mt. Vernon.

PINBOYS AT STATE TOURNEY.

Akron, O., April 15—Automatic pinsetters will not be used in the state bowling tournament in this city next week. The city association has decided to use pin boys, for the reason that only two of the automatic pinsetters have been purchased, and the manner of setting the pins would not be uniform. The machines will be placed on two alleys that will not be used in the tournament.

"NEWARK WILL WIN"

The Opening Fame of the Season Says Manager Nehls of the Newark High School Team.

The baseball season in Newark opened at the Y. M. C. A. Athletic field this afternoon at 3 o'clock, when the fast bunch of players from Nashport lined up against Newark High. Manager Nehls made the following statement to The Advocate:

"We are going to have our hands full this afternoon, but I am confident of winning this opening game. The diamond is in good condition and all our men are in first-class shape. We have sold many tickets and everything points to a successful opening. Remember, we are going to win."

The Newark team line-up is as follows: Kibler, 3b.; Huber, ss.; Pierce, 2b.; Prior, 1b.; Blood, lf.; Russell, m.; Speer, rf.; Pine p.; Nehls, c.

PAUL JONES REMAINS

Located at Paris and Will be Removed to Washington--The Body is Well Preserved.

Washington, April 15 Ambassador Porter at Paris has sent an official report to the state department regarding the remains of John Paul Jones, the great naval hero of the United States, who died in France. It is likely a warship will be sent to bring the remains back to the country.

Paris, April 15—The body of Paul Jones has been found and the remains positively identified Ambassador Porter cabled to Washington announcing the successful results of his long and difficult search. The body is in a good state of preservation, considering that the interment took place over 100 years ago. General Porter has conducted the search for the last five years, and when congress recently took no action on the president's recommendation for the expenses incident to the search the ambassador continued the extensive labors at his own expense. A large force of workmen has been engaged night and day tunneling and cross-tunneling the old St. Louis cemetery. This constituted a huge operation, embracing nearly a block covered with buildings and requiring a system of subterranean mining.

Body to Be Brought Here.

Washington, April 15.—There is genuine satisfaction among the officials at Washington that the untiring efforts of Ambassador Porter have been crowned with success, and it is probable that a recommendation will be made to congress at its next session looking to his reimbursement. The remains of Jones are to be brought here and interred in the national cemetery at Arlington, and it is likely that the transfer will be made the occasion of an interesting demonstration.

The latest weapon of man is a flowing fortress for coast defense purposes. This fighting machine, which is called the Cerberus, lacks in every line of beauty. It is nothing more nor less than a perfectly round floating fort, about 200 feet in diameter, heavily protected by impenetrable thicknesses of armor plate and equipped with batteries of heavy guns far too large to be mounted upon any ordinary battleships. The idea of the invention was suggested by a small but strongly fortified island.

Spain is gradually waking up to the conclusion that she is better off than she was before the war, and that to have been cut loose from her troublesome and unprofitable colonial possessions was the most advantageous thing that could have happened.

A special detective force has been organized in Berlin to protect unaccompanied women from insult. Within six months 158 men have been convicted for this kind of molestation.

There are now some ten thousand modern plows in use in Greece against 14,000 antiquated ones. Greece is said to offer a very good market at present for the sale of agricultural implements.

It covered his whole career, starting with a silver statuette of the First Consul and ending with a lock of his hair and the death mask taken at St. Helena. There were miniatures of the great Corsican himself, of his son, the ill-fated King of Rome, of Desiree Beauharnais, Marie Louise, Mme. Bonaparte; medals, crosses of the Legion of Honor, Waterloo relics and a remnant of the flag in which his coffin was wrapped with splinters of the coffin itself.

TWO OIL WELLS

WILL BE DRILLED BY LICKING OIL AND GAS COMPANY.

Newark Men Hold Five Thousand Acres of Land in Coshocton County.

The Licking Oil and Gas company, of which C. L. Mercer of Mt. Vernon, president, and C. L. Sturgeon and J. C. Smith of this city, are secretary and treasurer, have just let a contract to Eugene Buck [illegible] of Corning, O., for the drilling of at least two wells in the vicinity of Wakatomika, Coshocton county, close to the Licking county line, where the company holds leases on 5,000 acres of land. The operations are to commence within two weeks. This company was organized last fall and was incorporated with a capital stock of $70,000. A large amount of the stock has been sold at 30 cents on the dollar. During the past week the company has had a number of oil men from Knox and Licking counties inspecting the territory and so far as they can judge, think very favorably of the prospects. The territory lies in a direct line between Otsego and Bladensburg, the two important oil territories in this part of the country. At this time Attorney B. F. McDonald of this city, is one of the stockholders and is the attorney for the company.

PRESIDENT

MAY KILL ALL GAME HE WANTS IN COLORADO SAYS GOVERNOR.

Big Crowds Turn Out at Several Points—Mr. Roosevelt Presented With a Big Stick.

New Castle, Colo., April 15—President Roosevelt and his hunting party arrived here this morning. They were greeted by a thousand people. The special was broken up at Glenwood Springs and only the president's private car was brought here. The President made a ten minute address to the crowd. The party, accompanied by guides, then mounted horses and started for the first hunting camp, 15 miles south. When the train pulled in the local Grand Army post formed a cordon around the rear end of the President's car and three stalwart veterans raised Miss Anna Murray, aged 16, daughter of the village blacksmith, to their shoulders while she presented the President, for his daughter Alice, with a handsome horse hair, silver mounted bridle on behalf of the women of New Castle.

Colorado Springs, Colo., April 15.—When President Roosevelt crossed the line into Colorado he was met by Governor McDonald, who presented the chief magistrate with a special license giving him permission to kill any game he desired in the state.

The president was greeted by crowds at every point where the train stopped. Trinidad and Pueblo were the scenes of notable demonstrations. At the latter place the school children handed the president a big stick. Ten thousand people greeted the distinguished party on arrival here. Brief addresses were made by the president in response to the demands of the crowds.

With the snow from three to five feet deep in the hills, it is possible that President Roosevelt will be compelled to delay his hunt in the vicinity of Newcastle or content himself with smaller game than the grizzlies he planned to kill. For a week now snow has fallen.

President Roosevelt, addressing a vast assemblage at one point, said: "Two years ago I went to the Pacific slope. I have been to the north, south, east and to the west in this great country of ours, and while there are slight differences [illegible] people in one place and [illegible], the fundamental thing [illegible] wherever I go is that down at the bottom, if you can get at him, the average American is a pretty decent fellow. I believe that about all that is necessary to get one American to know another is to have them get on well in government. There is not any remarkable genius or remarkable brilliancy needed; what is needed in governing ourselves is the exercise of just exactly the same [illegible] that make a man a decent neighbor, a decent husband, a decent father. If that is the type we have in our representatives, we are going to have success. We can not afford to barter such qualities as honesty, as courage, as common sense, for any amount of brilliancy or genius. We need in public life as we need in private life [illegible] that have been [illegible] since history began."

TEAMSTERS

AT CHICAGO SEVERELY INJURED IN THE STRIKE.

All Sustain Bad Scalp Wounds—Outlook for Settlement of Trouble is Gloomy.

Chicago, April 15.—Infuriated teamsters attacked a caravan of Montgomery Ward & Company wagons near the Northwestern freight house today, dragging a nonunion driver from the wagon. Another conference was held today in an endeavor to settle the strike.

Chicago, April 15.—After hours spent in conferences with both sides in the Montgomery Ward & Co. strike, Mayor Dunne announced that he had made no progress toward a settlement of the trouble, and he did not seem hopeful that an adjustment will come in the near future. Further conferences will be held, however, but it is not thought by either the employers or the strikers that any arrangement will be reached. The great obstacle to the settlement is that the teamsters insist that the strike of the garment workers, now four months old, be arbitrated before the teamsters return to work, and the employers insist that the teamsters return to work before anything is done concerning the garment workers.

A desperate engagement between union and nonunion men which almost attained the magnitude of a riot took place at State and Van Buren streets where a crowd of union men attacked four nonunion men who were leaving a restaurant. The nonunion men fought desperately, but were overwhelmed by numbers and were compelled to run. All of them sustained scalp wounds, and James F. Gal[illegible], one of the union men in the attacking party, was stabbed in the arm. His injuries are not serious.

It will be remembered that Miss Francis joined the "Who Goes There?" company here last January, without having had any previous experience on the stage. She made a success at once.

Miss Francis will take a prominent part in tonight's play and she sings several solos. The production is more elaborate than when here before, a chorus having been added.

TREASURY

In Athens County is Short Twenty Thousand

LOOTED BY AN OFFICEHOLDER

But Identity of Man Still a Mystery---Treasurer is to be Held Responsible.

Columbus, O., April 15.—It has been discovered by an agent of the State Inspection Bureau that there is a shortage of $20,000 in the treasury of Athens county. Recently an examination was made of the financial affairs of the county by this agent, and the matter was unearthed. The remarkable feature of the case is that the defalcation occurred some years ago, and that the shortage has been concealed ever since.

While the present treasurer, E. C. Woodworth, will be held by the state officials as responsible for the loss, yet it is not charged that he is in any wise guilty of the peculation of the funds which are missing.

The books show that there is $20,000 less on hand than there should be, and the treausrer is simply asked to make it good. The matter has been a close secret in Athens, those interested in the alleged embezzlement having been able to keep it cloaked all these years.

Even now it is not intimated who is directly responsible for the taking of the money, but it is remembered that at the close of a certain treasurer's term there was a good deal of scurrying and running about on the part of his bondsmen. This person afterward became quite prominent in state politics, but lasted only a short time. The report of the inspector who made the examination has been filed with the State Bureau and by it turned over to State Auditor Guilbert.

When asked concerning the matter, that official stated that a report had been made, but that he was not yet ready to make it public for the reason that he had not been able to go over the findings of the inspector.

"I expect that it will be ready for publication within a week or ten days." said Mr. Guilbert. "I am surprised that it should have become known."

Further than this the chief financial officer of the state would not discuss the matter because he was not familiar enough with the case in detail to discuss it.

It is expected that the exposure of this condition will create an explosion in Athens county, where, as stated, the community is as yet in perfect ignorance of what has happened to its funds.

Dock Laborers Strike.

Libau, April 15.—The dock laborers here have struck, and the loading of grain has been suspended. Barn burning continues in many districts. Strikers have cut the telegraph wires at the Elizabethpol station and several trains have been held up.

Captain Clado Censured.

St. Petersburg, April 15.—Grand Duke Alexis, high admiral of the Russian navy, has issued an order severely censuring Captain Clado (formerly chief tactician on the staff of Vice Admiral Rojestvensky) for his criticisms of the navy, and at the same time, in order to "give him an opportunity to repair his faults," appointing Captain Clado to special service in connection with the equipment and command of vessels navigating rivers in the theater of the war.

DEAR OLD RIP IS CRITICALLY ILL

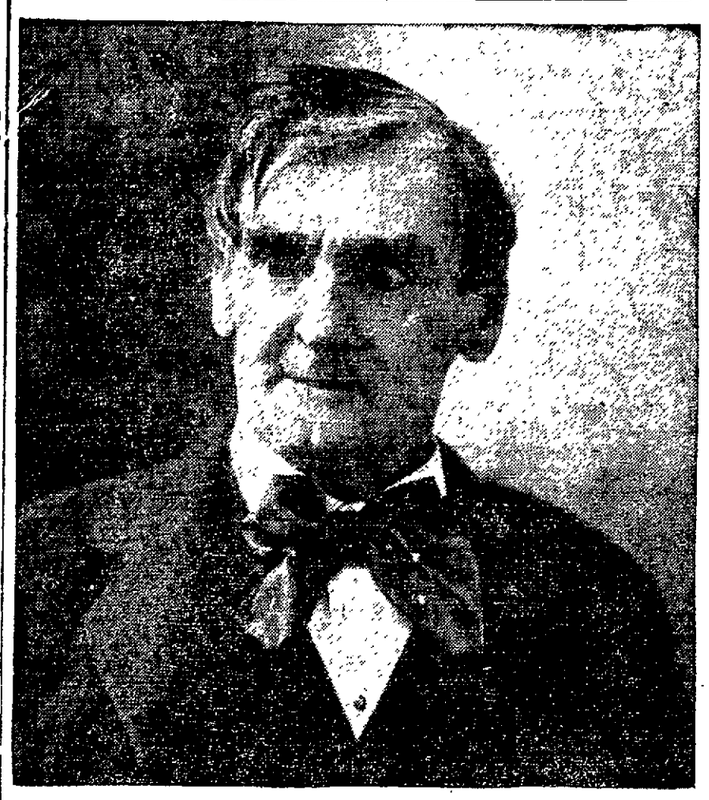

Photo by Sarony, New York.

JOE JEFFERSON, DEAN OF THE AMERICAN STAGE.

West Palm Beach, Fla., April 15.—Joseph Jefferson lies critically ill at his winter residence at Palm Beach. His condition, reported by attending physician, Dr. R. B. Potter, is little if any improved. He is surrounded by his family, and they are prepared to expect death at any minute. Three weeks ago Mr. Jefferson visited ex-President Cleveland at Hobe Sound, where he caught cold and upon his return to Palm Beach was forced to take to his bed. He convalesced and was up after a few days confinement when Monday he was seized with a relapse. Dr. S. C. Worley was called from St. Augustine, but returned there when Mr. Jeffferson showed some improvement.

DIFFERENCE BETWEEN PARTIES

Ohio Republican Convention Will be Cut and Dried Affair Ruled by Machine Bosses---But There Will be No Boss Rule at the Democratic Convention.

Columbus, April 15—Of course everything was cut and dried for the meeting of the Republican state central committee in this city the other day. The entire Republican machinery is in absolute control of the Dick-Herrick-Cox faction. The Forakerites cannot get as much as a smell of anything and are not even permitted to approach the throne except they prostrate themselves in the presence of one boss or another. All the details for the coming Republican convention May 24-25 will be arranged in advance and carried out, just as were those for the meeting of the state committee. The delegates will not have anything to say about it and the independent thinking of Republicans throughout the state will not be represented. No petitions, protests or resolutions will be received except those mapped out by the machine, and the rank and file of the Republican party will be forced to accept the resulting ticket and platform.

Happily for the state Democracy its affairs present a very different aspect. The state central committee will soon meet to fix the time and place for the convention and to apportion the delegate representation. There will be no boss present and no well oiled machine running. Undoubtedly differences of opinion will arise, as they usually do among thinking men, but they will be discussed candidly and with the sole view to promote the chances of party success next November. Chairman Garber and some other members of the committee on organization are in favor of basing representation in the convention on the vote for president in 1900. This would make a larger convention than would be held if representation were based on the vote for Parker last year. The plan, however, is vigorously opposed by some of the most prominent Democrats in the state, on the ground that it would be a violation of precedent, which has always adhered to the policy of basing representation in state conventions on the vote for the head of the ticket at the last previous election. It is held that if some counties would have their representation reduced this year by adhering to the old basis of representation, that it is no more than they deserve. Indeed that is the very purpose of the rule, which both parties adopted and have always adhered to in order that the counties which do the greatest amount of voting shall have the largest representation in conventions. This system is simply one of logic rewards and punishments, the object being to recognize party loyalty. It is also said in opposition to Chairman Garber's plan that it might create distrust of the state central committee among the voters throughout the state, who would undoubtedly be surprised at the change and might question the motives of the committee in making it. All this will have to be threshed out when the committee meets, but it will be done in a spirit of good will.

The leaders of the porty in this state were never so harmonious in their relations toward one another as at present—at least not for many years. There is a universal feeling that victory is in reach, accompanied by the firm conviction that the chances of obtaining it will be wantonly thrown away if any party factionalism or personalities are permitted to creep into the management of the party and the deliberations of the state convention. The latter will be a deliberating body in the highest and best sense, and the leaders today feel assured that it will inaugurate a new era of good feeling among Democrats, and new opportunities for tht party throughout the state, in a local and a general sense.

One of the most important political fights in the state this year will be waged right here in Columbus and Franklin county. A large number of very important offices are to be filled. The county will elect a sheriff, probate judge, clerk and other officers, and the city a mayor and full city ticket at the same time. Herrick carried this county by a plurality of nearly 2000 two years ago, but the conviction is strong that a good Democratic candidate for governor would land the county in the Democratic column in this campaign. The county Democracy will put up a strong local ticket. It will be greatly strengthened by the presence of the names of Sheriff Geo. J. Karb and Probate Judge Samuel L. Black, both of whom have been very efficient officers. Judge Black has been particularly successful in bringing the affairs of his office to a condition of perfection which has never characterized them in the past under judges of either party. He has established a juvenile court for the first time in Franklin county, and has taken a deep interest in the welfare of youthful offenders, while his care of estates and his discharge of other responsibilities have become proverbial. This is why he will strengthen the ticket. It is now very probable that ex-Congressman DeWitt C. Badger will be nominated for mayor by the Democrats. He has made a supporters here for the nomination, and would very probably get the Franklin county delegation in the state convention if he went after it. For local success, however, it is believed to be more to the interest of the party to nominate Judge Badger for mayor, which with the other names here mentioned, would make a well nigh invincible ticket. If the remainder of the state puts up as active a fight for the Democracy as will distinguish the campaign in this county, the Republicans will be wiped off the map.

Boston, April 15—The gift of $100,000 to the American board of commissioners for foreign missions from John D. Rockefeller was solicited by representatives of the prudential committee, according to a statement sent to the press from the headquarters of the board. This is entirely a different version of the matter than that given in an interview with Secretary James L. Barton on March 27 and made public through the local office of board. In the earlier statement Dr. Barton is made to say that the gift was voluntary and unsolicited.

Sultan Settles With France.

Constantinople, April 15. — The French ambassador, M. Constans, has received an imperial irade, making a complete and definite settlement of the French claims. It gives an indemnity of $7,000,000 for the controversy over the Damascus-Nazrib railroad and insures continuous French control of the road, and also accords as damages $320,000 to the French company operating the quays of Constantinople. The principal feature of the irade is an agreement to use a third of a loan of $12,000,000 for ordering warships and artillery from French firms. The latter feature gives much satisfaction here, as it was sharply opposed by Turkey, with the concurrence of the German ambassador.

Labor on the Canal.

Washington April 15. — The executive committee of the Panama canal commission, Messrs. Shonts, Magoon and Wallace, decided to draw up detailed specifications to govern in the employment of labor on the canal. A decision from Attorney General Moody as to the application of the eight-hour day to the work is expected in a few days and will govern that problem in the specifications. Permission will have to be obtained from the Japanese government before the 2,000 laborers from that country can be secured. The specifications as to treatment, sanitary conditions, etc., will have to be submitted to that government before this permission is obtained.

Students Strike.

Tamboff, Central Russia, April 15 — The pupils of the Ecclesiastical seminary here have struck. According to a decision rendered the other day by the supreme court of the United States, the various boards of health of the State of Massachusetts have the right to enforce compulsory vaccination to prevent the spread of smallpox.

AN ANTI-TOXIN

For Deadly Cerebro--Spinal Meningites

IS FOUND BY OHIO SCIENTISTS

Spotted Fever Germ That is Carrying Off Many Children is Finally Isolated by Doctors.

Cincinnati, O., April 15.—To the pathologists of the City hospital is due the credit of having isolated the germ, the cause of cerebro-spinal meningitis, which has raged in an epidemic form in the east and has cost the lives of hundreds of children. With this important discovery they also believe that they have found a toxine, namely, the anti-diplococcus serum, as a specific against its ravages.

For some time it has been known that the germ diplococcus intracellularis meningitis was the parasite that once having invaded the tender organism of a child or young adult, caused the disease. Theoretically it was supposed that the germ was inhaled through the nose by way of the cribriform plate and was thence taken up by the blood or lymph current. Again, it has been argused that the tonsils, as in rheumatism and scarlet fever, are the seat of infection. The investigations and the discovery made yesterday proves of the utmost importance, and will be submitted to the Academy of Medicine at its next meeting. Cerebro-spinal meningitis is epidemic in a mild form in this city.

The unfortunate little victim who furnished the material for this week's investigation was five-year-old Jacob Goldstein, whose parents live at 612 Carlisle avenue. On last Sunday he suddenly complained of a headache and was seized with a spell of vomiting. At the City hospital the physicians were long in doubt whether or not they had a true case of cerebro-spinal meningitis on their hands, and awaited developments. On Thursday, however, the muscles of the child's neck became suddenly painful and stiff and yesterday, like the victim of lockjaw, he lies with his body arched, its entire support resting on the back of the head and the heels. As the victim of hydrophobia shuns water so this child shuns night, and his eyes move from side to ide with the regularity of a pendulum.

On Thurday also the temperature of the boy went up to 106 degrees, and it was then that the physicians decided to draw the fluid from the lumbar region of the spine of the little patient to give him ease. What was their surprise to find this fluid, usually clear as crystal, of a density of skim milk. This unusual feature induced them at once to send the fluid to the laboratory with the statement of the facts to the pathologists. Experiments were at once instituted and soon millions of the tiny diplococcus intracellularis meningitis, talked of in text books, but never isloated.

DUN'S REVIEW

Good News Still Predominates in Trade and Industry—Easter Business of Large Volume.

New York, April 15.—R. G. Dun & Co.'s weekly review of trade says: Good news still predominates in trade and industry. Easter business is of large volume, dry goods, clothing, footwear and all lines of wearing apparel reporting an unusually good demand, and shipping departments are taxed to their full capacity in many cases. Jobbing trade in goods for fall delivery is broadening, and there is more inclination to prepare for the future. Manufacturers report less idle machinery, the iron and steel industry leading with an unprecedented output of pig iron, yet consumption is also above all records, for there is no accumulation at the furnaces. Textile mills are also well engaged as a rule and forwardings of footwear from Boston make favorable comparisons with every year except 1900. Many steel mills are several weeks behind with deliveries, and in some cases contracts are not taken where shipment is desired before July 1. Pressure is especially noteworthy in all lines of railway supplies, particularly light rails.

PIKE'S BONES

Are to Rest Beneath the Great Peak in Colorado, from Present Tomb in Indiana.

Colorado Springs, Colo., April 15.—The one hundredth anniversary of the discovery of Pike's Peak will be celebrated by the entire state of Colorado Springs this summer and a movement is now on foot to bring the remains of Lieutenant Zezulon M. Pike to Colorado and re-inter them beneath the shadow of the peak which bears his name. The bones now lie in an almost forgotten corner of the Lawrenceburg, Ind., cemetery unhonored and unmarked. If permission can be secured to bring the body here the city will erect a magnificent monument over the grave.

COMPLAINT

Is Entered Against Equitable's Mutualization Plan---Matter is Referred to Justice Scott.

New York, April 15.—Complaint was made to Justice Blanchard in the New York state supreme court that the Equitable Life Assurance society has failed to distribute its surplus as provided by its charter; that the surplus has been improperly used and that the mutualization of the company under the plan adopted by the directors will do injustice to the policy-holders. The court was asked to issue an order restraining State Superintendent of Insurance Hendricks from taking further proceedings toward the mutualization of the society. The action was taken by A. E. Woodruff of this city in behalf of Herbert G. Tull of Philadelphia and other policy-holders. Justice Blanchard being a policy-holder in the Equitable society, declined to entertain the application of Lawyer Woodruff and referred the matter to Justice Scott, who issued an order to Superintendent Hendricks to show cause on April 18 why he should not be enjoined from aiding in the mutualization of the Equitable society.

To Receive Italian Ambassador.

New Orleans, April 15.—R. D. Bowen, chairman of the committee appointed by Governor Lanham of Texas to receive the Italian ambassador, Baron E. Mayor Des Planches, is in the city and will return to Texas to complete the itinerary. The Southern Pacific railroad has placed a private car at the disposal of the baron. Other Texas roads will furnish the baron a special train. The baron is expected to reach New Orleans about the 22nd, where he will be met by the committee appointed by Governor Lanham and escorted to and through Texas. He visits Texas with the object of looking up suitable locations for Italian immigrants. Mr. Bowen says Texas is sadly in need of labor and has room to accomodate several million more industrious people.

New York, April 15.—After a meeting of the board of governors of the Building Trades Employers' association here it was announced that the lockout of building trades in this city will be withdrawn and a truce declared between the Brotherhood of Carpenters and the unions organized by the Employers' association. Another conference is to be held between the association and President Huber of the Brotherhood of Carpenters. The developments, it is said, have dissipated all fears as to the possibility of a national strike of carpenters involving not only New York, but Chicago, Boston and other large cities.

Rochester, N. Y., April 15. — Four men were perhaps fatally burned and a fifth seriously injured in a gasoline lamp explosion in a building under construction on Main street. The men were going to an upper floor in an open elevator, taking the lamp with them, when it suddenly exploded. The elevator man let the car go, which ran to the top and then started back. HEART OF MARYLAND.

David Belasco's "Heart of Maryland" will be the dramatic attraction at the Auditorium, April 22.

WHO GOES THERE?

"Who Goes There?" will be seen here tonight with a company three times the size of the first one, since

musical specialties are now presented at intervals in the piece, and a large chorus gives vim and soarkle to the refrains of the popular song and dance numbers introduced. Curtain rises at 8:30.

ISLE OF SPICE.

The Japanese costumes worn by the people in the "Isle of Spice," which will be on view here shortly, were imported direct from Tokyo, Japan, and are the work of one of the best costumers in that enterprising country. Manager B. C. Whitney had to pay a big price for these pretty and charming dresses, besides paying a large sum to the United States government for duty on this matcrial.

DAVID HARUM.

"David Harum," as a play, has a most enviable record. It ran for sixteen weeks in New York City, seven weeks in Boston, six weeks in Chicago, and six weeks in Philadelhpia. Competent judges say that the humor and the touches of human nature in the play will cause it to live and be popular for many years to come.

THE SHOW GIRL.

B. C. Whitney's stupendous production of "The Show Girl" which will be seen at the Auditorium on April 17, is a musical extravaganza in two acts, the prime factor of which is the merry making. "The Show Girl" was originally produced by the famous Boston Cadets and R. A. Barnett, the author of "1492," "Excelsior Jr., "The Girl from Paris," and other notable successes, wrote the book. When staged professionally by Mr. Whitney it enjoyed a three months successful run at Wallack's theatre, New York City, and a supplementary season at Manhattan Beach. It was so successful that the management felt warranted in ordering an entirely new set of practically ne a new production. The scenery and costumes, so that it will popular and charming comedienne. Miss Stella Mayhew, heads the list of metropolitan favorites. Miss Mayhew has won renown wherever she has appeared as an actress of excellent ability. Her rendition of coon songs in her vivacious and bewitching manner has caused critics to acclaim her to be a successor to May Irwin. Twenty new musical numbers have been written for this production, and among them will be found numerous musical "hits." The piece is called a jolly bit of tomfoolery and is built on the possession of a wishing cap which is in the hands of Dionysius Fly, for the introduction of a host of specialties, all of which are clever and refined. Seats on sale tomorrow.

SYMPHONY ORCHESTRA.

The concert of the Cincinnati Symphony Orchestra at the Auditorium, Thursday evening, was a rare treat for Newark music-lovers. Although not greeted by a very large audience, the orchestra received the highest praise of all who heard it. The program, while composed of quite a variety of styles and much lighter than that given in Granville, was rendered in a most perfect and charming manner.

Herr Van der Stucken's ability as a conductor was fully shown in the "Suite by Grieg," consisting of five numbers of decidedly varying style His "Louisiana March," also certainly proves his ability as a composer.

Brahm Van den Berg at the piano, was indeed a pleasing and effective performer. Although not decidedly classicial, his numbers showed him to possess great technical ability.

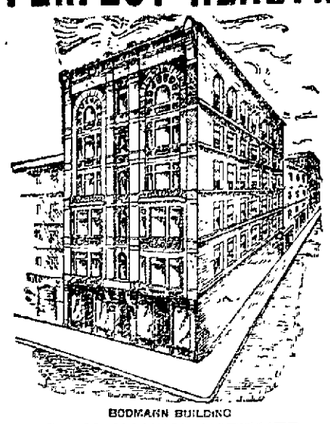

It is fully believed that if the orchestra appears again in Newark they will be greeted by a much larger audience.

Let Common Sense Decide

Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't. But

LION COFFEE

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER OF ALL PACKAGE COFFEES.

Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."

Sure Relief for Women.

No. 18 Central Ave.
HOT SPRINGS, ARK., April 30, 1903.

Eighteen months ago I was so completely run down that my body ached from head to foot. My back seemed to break in two and I suffered intense pain in the lower abdomen. I could not afford to lay off and take a rest, and no medicine helped me any.

A friend told me how much Wine of Cardui built her up and advised me by all means to take it. The day I took the first dose the recovery of my health began. It was nearly three months before I was entirely cured, but at the end of that time I was in better health than I had been for seven years. I look on Wine of Cardui as the most blessed medicine that a woman could possibly take when she feels sick and tired of life.

Anna Nelson
ORATOR, WEDNESDAY CHAUTAUQUA CLUB.

WINE of CARDUI

Mrs. Nelson describes the condition of thousands of women. That condition comes by slow stages. Usually the important function of menstruation is at first slightly irregular. Then comes the painful periods. Bearing-down pains and ovarian inflammation follow. Finally the nervous system gives way and the whole system has become affected and the pains rack the body from head to foot.

Wine of Cardui is a menstrual regulator of established reputation. No woman who takes it suffers as Mrs. Nelson suffered. It gives speedy and complete relief from the torturing menstrual agonies which are making so many women invalids today. Do not let yourself come to the pitiable condition Mrs. Nelson describes.

Secure a bottle of Wine of Cardui from your druggist today and begin treatment immediately.

TALK ON EARLY NEWARK BY WM. M. CUNNINGHAM, ESQ.

Hill Where Warden Now Stands, Pond On East Side, a Bluff On Church Street.

GLIMPSE AT THIS TOWN MANY YEARS AGO

Stone In Horney & Edmiston's Cellar Shows What Was Once Surface of West Side of Public Square ---Interesting Facts Are Recalled In Talk With a Reporter.

"I was born here seventy odd years ago, but," and the keen blue eyes scrutinizing a member of the Advocate staff twinkled, "that is by way of digression. At least I suppose you will consider it as such. Newark is the topic you want me to discuss. If, however, you want to be very polite about it, you may credit whatever I happen incidentally to say about my own personal experience, to an attempt to show you the perspective from which I have viewed part of the changes about which I am going to talk, that is those which have occurred in my lifetime." Thus spoke Wm. M. Cunningham, one of Newark's best known and most honored citizens.

The reporter bowed in acquiescence. Snow white hairs surmounting an intellectual forehead, frosting a skull full of keen, vigorous wits are bound to carry their weight even with a newspaper reporter. There is something compelling in the ear marks of experience. Old men make peculiarly apt historians; they know so much more exactly upon which particular events to lay emphasis. Having experienced for long years the buffets and kindnesses of time, they no longer fear its results and can unbiased, properly value the same. A ripened, mellowed, clear mind is amply equipped to chronicle events. Such were the thoughts passing quickly through the minds of the reporter.

"Newark laid the foundation of its career as a municipality," continued the speaker, "in the year of 1797. That is, a few straggling settlers' cabins that year became uncertain ornaments to the smaller hills and bluffs which, at that time occupied the central part of Licking Valley, where is now the beautifully leveled site of Newark.

"Just think of it, young man, to jump into the thing with a rush, what now constitute a diagram of broad, level, splendidly paved thoroughfares, bordered by modern buildings, was a hundred years ago a series of hills, valleys, bluffs and swamps. The average newcomer among our citizens unless he is very observing, and becomes suspicious of the terraced lots about some of the older houses, looks upon Newark as a fortunate coincidence of nature. A beautiful, level, bowl shaped valley, splendidly watered and entirely surrounded by hills, roofed by an arching dome of blue, and protected from the entrance of foreign ills by the magnificent forest trees crowning many of the surrounding hill crests. Their conception of this is correct, but the origin was not entirely natural. Multitudes of toil induced sweat drops watered these streets before they took their present form. Most modern Edens have to be worked out with a pick and shovel, or some means equally difficult, and Newark was no exception to the rule. Where the Warden hotel now stands with its three stories and basement, there was in the old days a hill almost the height of the present building. Surmounting the hill was a log cabin, and in this cabin in the year 1802 my mother was born. At the foot of the hill, at the junction of Main and East Park Place, was a pond. The site of the [illegible] house was level land, and just to the west of it was low land. Where Horney & Edmiston have their book store [illegible] was a shoe shop conducted by [illegible] Smith, the father of Captain Ja[illegible] H. Smith, our [illegible] nent Mex[illegible] War veteran. At the rear of the [illegible], a few steps led from the floor [illegible] the surface of the [illegible] in the rear. [illegible] the foot of these steps lay a large [illegible]. That stone, [illegible] [illegible] lies in the cellar of the [illegible]. In other words, [illegible] ground in that [illegible] [illegible] a level with [illegible] was former[illegible] [illegible] [illegible] surface having [illegible] [illegible] level. The [illegible] [illegible] [illegible] [illegible] when the [illegible] [illegible], simply [illegible] of [illegible] it being rather [illegible] [illegible] move.

In my boyhood days I played in the sand at the foot of a bluff [illegible] where now [illegible]. I remember [illegible] [illegible] while burrowing there one day with my mates. The sun shone brightly in those days, I can tell you, and the molding of the sand into various shapes seemed to represent to our boyish minds the pliability of the world when we once took hold of it, with a view of subjecting it to our wills. From the top of this bluff the ground sloped west to the present level of the yard about the old Central school building on West Church street. A swamp or pond lay a little to the north of the bluff, extending from the alley, connecting the foot of Elmwood avenue with Church street west, and occupying land just in the rear of Jones' Row on church street. Also the present site of Lovett's laundry, and north as far as the Henry Norris lumber yards. A neck of land divided this swamp into two sections, the strip being somewhere between the curbs of the present North Fourth street.

In fact, a number of years ago during the construction of the sewer up Fourth street, a lot of log had to be sawed through. These have formed the houses of an old corduroy road which traversed the neck of land just spoken of. The map accompanying this sketch will give a clearer idea of the old topography of Newark than can be gained from a word description. In addition to what I have already said, however, I would suggest that the old homes still standing on banks, to be seen a few blocks from the courthouse along East and West Main streets, Church street, North Fourth street, and at Third and Second streets, still bear ample testimony of being remenants of an elevated section of land partially encircling the public square. The sketch and this description give a fair idea of what a wonderfully laborous task has been accomplished during the past century in bringing these hill top and valley bottoms to the present regular surface level of Newark.

If one of the first settlers had led his son to the crest of the hill which once stood where the Warden is, and have commanded, "My son, build here a city, which shall be level of surface, and broad and regular of streets," the task might well have daunted a strong heart, yet does the giant Progress march steadily on apparently indomitable.

To lead in the accomplishment of this task, Progress chose three men, Israel Dille, mayor; an engineer by the name of Turner, and a school teacher by the name of Abil Curtis Edgell. The latter of these three laid out the town then it waited for a strong hand to do the grading and filling. Israel Dille was the man required. Dille saw farther ahead then his contemporaries. He realized the importance of the future of the town and after taking his office he quietly set about the task. His first step was to get the council to issue for the purpose, paper fractional currency. He then elected the engineer, named Turner, to do the actual grading, and started ahead with the work. Dille received much abuse, and criticism from his fellow citizens for causing them additional taxes. The present generation, however, appreciate and admire the splendid results of his far-sightedness. Much private grading was done; also, much filling was done about the square with old tan bark that had been used, spent tan, as it was called. Tanning was at one time a very prominent industry which fact created a wonderful amount of this old tan bark for distortion.

Some considerable filling about the courthouse [illegible] was done just after the first log courthouse was removed and prior to building the first permanent one. The [illegible] was beautified [illegible] through the efforts of Abner W[illegible] Dennis. Mr. Dennis had the beautiful forest trees planted there [illegible] [illegible] the center of the [illegible] [illegible] manner.

This [illegible] thorough[illegible] started by Dille and his associates, has gone on [illegible]. Here a little and there a little [illegible] [illegible] great results have been accomplished. The careless [illegible] a [illegible] gives but little thought to the labor [illegible] have cost to put it there [illegible] mark of human workmanship [illegible], the fact that it looks as though it had always been.

Well, young man, that is enough for tonight, don't you think?" And the narrator smiled genially as he politely ushered the reporter to the outer door.

A NEWARK CASE.

Many More Like It in Newark.

The following case is but one of many similar occuring daily in Newark. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such a conclusive evidence.

C.L. Starr, harnessmaker, of 89 Hancock St., Newark, O., says: "My confidence in Doan's Kidney Pills as a kidney and backache remedy is unbounded. In recommending this preparation I speak from experience. For years I was a sufferer from kidney complaint and backache and could get no relief. I had a miserable aching pain in the loins and my back was lame and weak. It was just as bad night or day and when I attempted to stoop or pick up anything a pain would strike me in the back that almost made me fall. If I remained in one position for any length of time and then moved quickly the pain stabbed me like the thrust of a knife. I suffered in this way for years, and all the remedies that I tried failed to help me. I was just as bad as ever when I got Doan's Kidney Pills at Crayton's drug store, and you may believe that I was delighted when the first few doses brought me relief. In less than forty-eight hours the backache was gone and I continued the treatment until entirely free from my old trouble. My wife used Doan's Kidney Pills and they did the same for her, and neither of us have had any return of kidney trouble since using them."

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other. 3

NEWARK'S GROWTH IS WESTWARD; TEN YEARS HENCE THE CENTER OF THE CITY WILL BE IN THE VICINITY OF BUEHLER'S CORNER. THE REASON FOR THIS IS APPARENT. THE LAND IN THAT DIRECTION IS JUST RIGHT FOR RESIDENCE PURPOSES, HIGH, DRY, LEVEL, WELL DRAINED; THE WEST END IS THE FACTORY SITE OF NEWARK, WHY? BECAUSE OF THE TWO TRUNK LINES, B. & O. AND PAN HANDLE, AND THE THIRD, (TOLEDO AND OHIO CENTRAL) JUST A STONE'S THROW AWAY.

WISE PEOPLE WHO ARE BUYING REAL ESTATE FOR INVESTMENT ARE LOOKING TO THE WEST END; THRIFTY FOLKS WHO ARE LOOKING FOR A LOT UPON WHICH TO BUILD A HOME ARE BUYING IN THE WEST END, KNOWING THAT THEIR PROPERTY WILL CERTAINLY GROW IN VALUE.

IF ANY PERSON HAD INVESTED IN WEST NEWARK PROPERTY A YEAR AGO AND WANTED TO SELL TODAY HE COULD MAKE A HANDSOME PROFIT; WHAT IS TRUE OF A YEAR AGO IS TRUE OF TODAY. THE MAMMOTH WEHRLE SHOPS, THE BIGGEST STOVE FOUNDRY IN THE WORLD, ARE STILL GROWING, AND THE NEW FEATURE OF THE BIG PLANT, THE SAFE FACTORY, BIDS FAIR TO RIVAL THE STOVE INDUSTRY IN A SHORT TIME. THE WEHRLES, KNOWING THE DRIFT OF THE TOWN WESTWARD, HAVE BOUGHT MANY ACRES JUST WEST OF THE CITY, AND THEY WILL MAKE MONEY ON THE INVESTMENT. A NEW STEEL PLANT FOR THE WEST END IS ASSURED.

WE NEED THE MONEY AND FOR THAT REASON HAVE DECIDED TO FIX PRICES THAT WILL ATTRACT BUYERS AT ONCE.

HERE IS AN OPPORTUNITY TO SECURE A SPLENDID BUILDING LOT AT A BARGAIN. EVEN IF YOU LET THE LOT REMAIN UNIMPROVED. IT WILL RAPIDLY INCREASE IN VALUE. IMPROVE IT AND IT WILL GROW INTO MORE MONEY MORE RAPIDLY. HERE IS A CHANCE FOR THE INVESTOR AND FOR THE HOMESEEKER. PUT YOUR IDLE MONEY INTO REAL ESTATE IN A GROWING TOWN. If a Cow gave Butter

mankind would have to invent milk. Milk is Nature's emulsion—butter put in shape for digestion. Cod liver oil is extremely nourishing, but it has to be emulsified before we can digest it.

Scott's Emulsion

combines the best oil with the valuable hypophosphites so that it is easy to digest and does far more good than the oil alone could. That makes Scott's Emulsion the most strengthening, nourishing food—medicine in the world.

REV. CHAS. E. CLARK

Popular Coshocton Minister Will Address Y. M. C. A. Meeting Sunday on "Knowing and Doing."

Rev. Charles E. Clark, the popular pastor of the M. E. church at Coshocton, comes to Newark, Sunday, to address the men's meeting at the Y. M. C. A.

"Knowing and Doing," is the subject he announces for his address.

Mr. Clark is a very able speaker and exceedingly popular among his own people. He will, no doubt, have something excellent for the men of Newark tomorrow. All are invited.

The meeting begins promptly at 3 o'clock, with a rousing song service, led by a big men's chorus, and Mr. Chas. Daly, cornetist. Come and enjoy the meeting and receive a blessing.

KING'S DAUGHTERS

At a Special Meeting Held in Presbyterian Church Friday Night Elected Officers.

A special called meeting of the County Union of the King's Daughters was held in the parlors of the Second Presbyterian church on Friday evening. The following officers were elected for the ensuing year:

Chairman, Miss Sadie Brown.

Reading Secretary, Miss Lucy Connell.

Treasurer, Miss Lyon of Granville County Secretary, Mrs. John Woolson.

AN UNUSUAL OPPORTUNITY.

Wiles-Erman will pay back your money if Pepsikola fails to cure dyspepsia. "Never in the history of this store," said one of the above druggists to a representative of wholesale drug house, "has there been so great a demand for a new remedy as there is just now for Pepsikola."

Newark people are coming in every day inquiring if it really is true that we sell Pepsikola with the understanding it will cure dyspepsia or pay back the money." "Of course this guarantee plan is quite unusual but we do just as we agree and we will hand back your quarter without the least argument if you are not decidedly benefited." "As a matter of fact," continued the druggist, "not one person in fifty has asked for their money, and it may surprise you to know at least a dozen within the last ten days have been in to tell us how much they have been relieved and how glad they are to know at last there is a remedy that really will cure indigestion and dyspepsia."

Pepsikola braces up and tones every nerve and fibre, helps digest the food, puts new life into the digestive organs, improves the appetite, clears up the complexion, cures biliousness, dizzy spells, coated tongue and sick headache.

Try it for ten days, and if you don't see a big improvement step in and tell Wiles-Erman & Co., and they will hand back your money cheerfully and without argument. tts-tf

100 DESIRABLE BUILDING LOTS

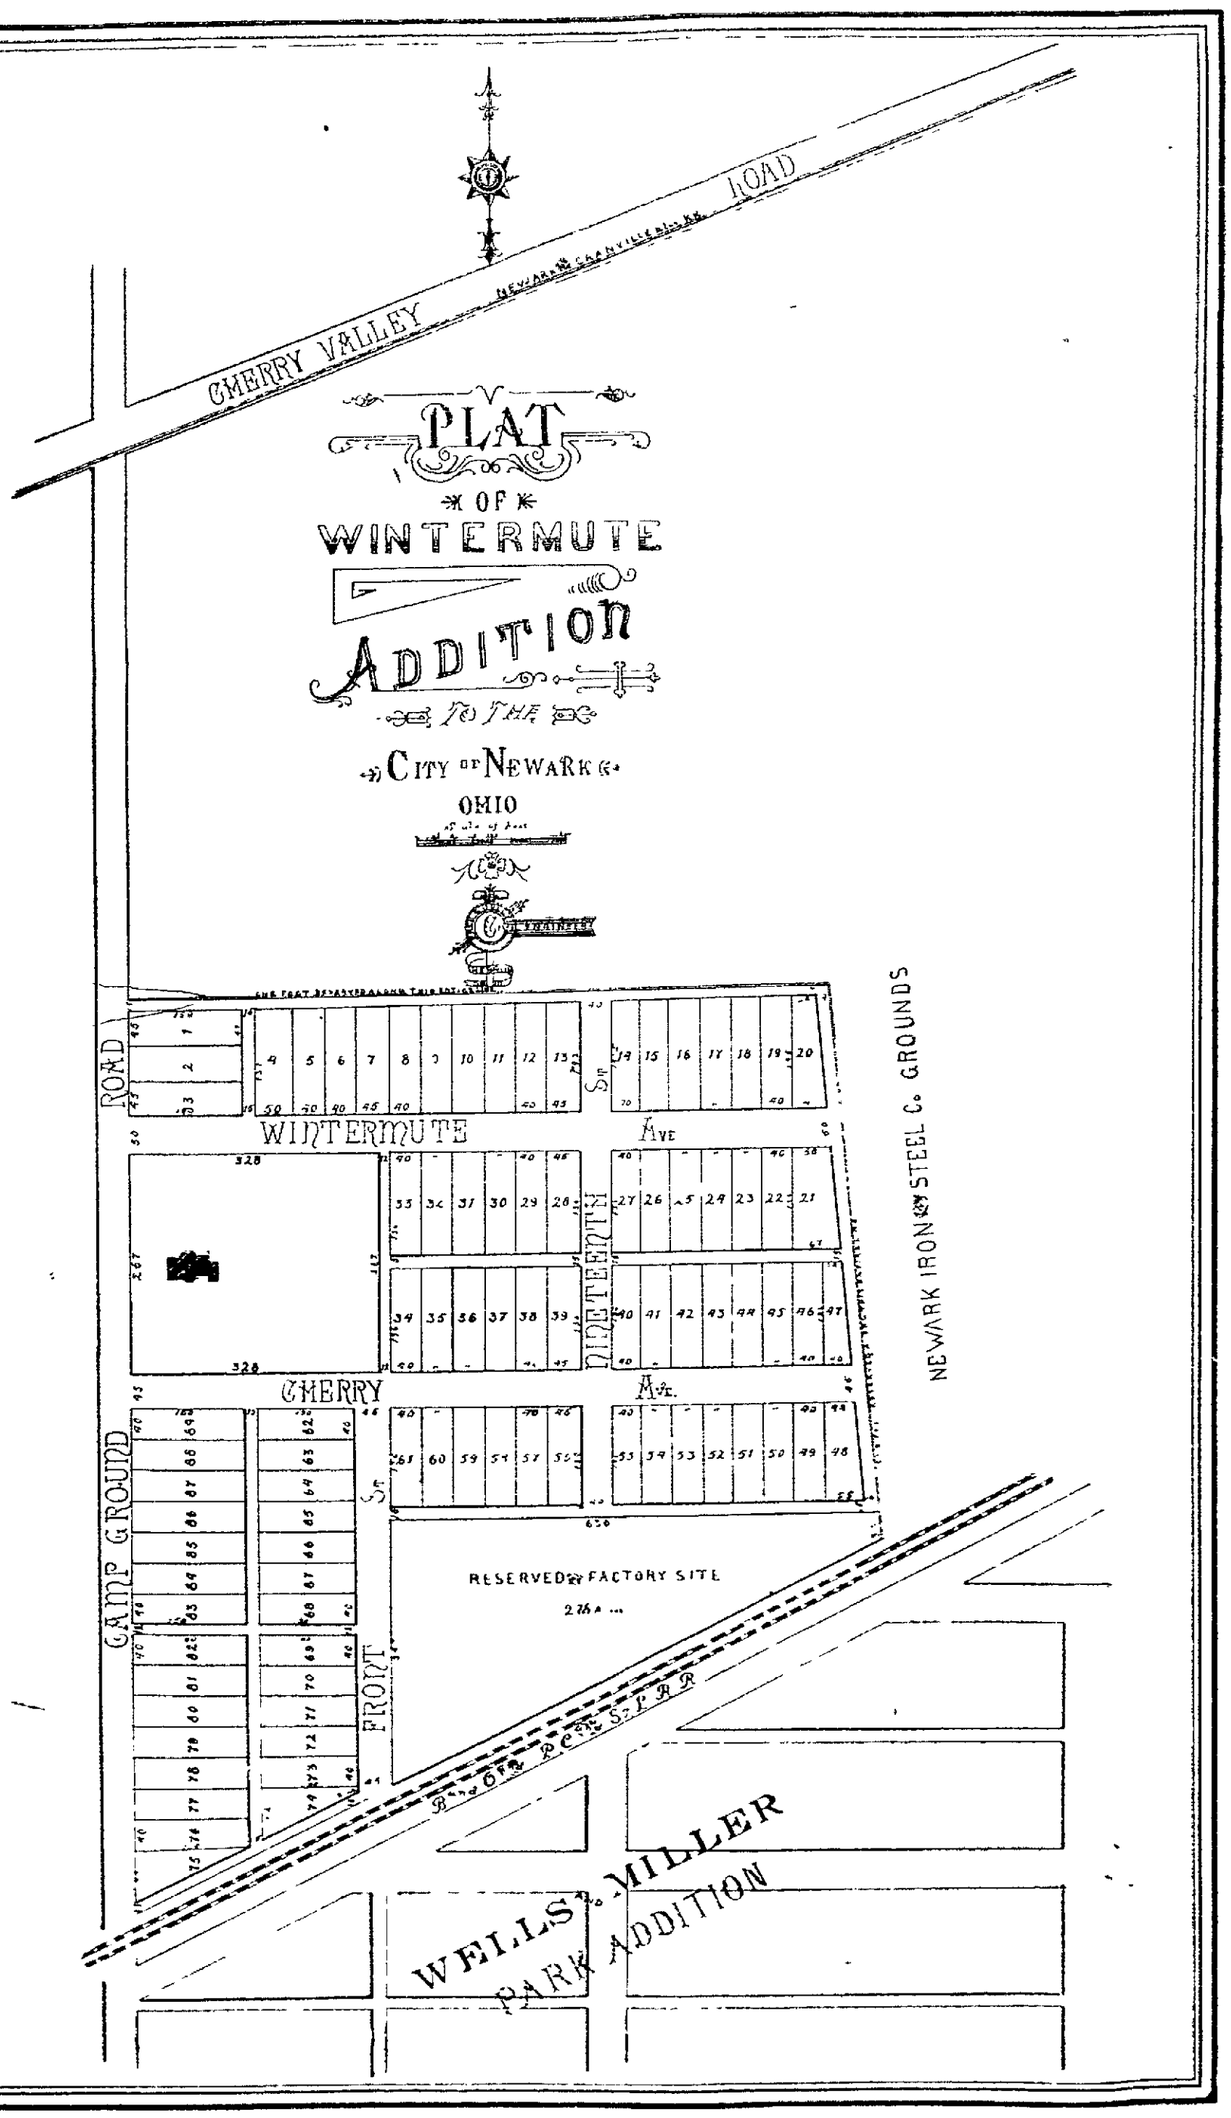

IN

THE WINTERMUTE ADDITION

JUST WEST OF THE CITY LIMITS, WILL BE PUT ON THE MARKET

SATURDAY, APRIL 22, 1905

At very Low Prices. These lots are admirably located, are of good size, well drained and watered, have Natural Gas and many Shade Trees. The Broad Streets, well graveled, Street Cars one minute's walk away, 10 minutes ride to Court House; prices low; Easy Terms or Liberal Discount for cash.

THE NEW ADDITION.

NEWARK'S GROWTH IS WESTWARD; TEN YEARS HENCE THE CENTER OF THE CITY WILL BE IN THE VICINITY OF BUEHLER'S CORNER. THE REASON FOR THIS IS APPARENT. THE LAND IN THAT DIRECTION IS JUST RIGHT FOR RESIDENCE PURPOSES, HIGH, DRY, LEVEL, WELL DRAINED; THE WEST END IS THE FACTORY SITE OF NEWARK, WHY? BECAUSE OF THE TWO TRUNK LINES, B. & O. AND PAN HANDLE, AND THE THIRD. (TOLEDO AND OHIO CENTRAL) JUST A STONE'S THROW AWAY.

WISE PEOPLE WHO ARE BUYING REAL ESTATE FOR INVESTMENT ARE LOOKING TO THE WEST END; THRIFTY FOLKS WHO ARE LOOKING FOR A LOT UPON WHICH TO BUILD A HOME ARE BUYING IN THE WEST END, KNOWING THAT THEIR PROPERTY WILL CERTAINLY GROW IN VALUE.

IF ANY PERSON HAD INVESTED IN WEST NEWARK PROPERTY A YEAR AGO AND WANTED TO SELL TODAY HE COULD MAKE A HANDSOME PROFIT; WHAT IS TRUE OF A YEAR AGO IS TRUE OF TODAY. THE MAMMOTH WEHRLE SHOPS, THE BIGGEST STOVE FOUNDRY IN THE WORLD, ARE STILL GROWING, AND THE NEW FEATURE OF THE BIG PLANT, THE SAFE FACTORY, BIDS FAIR TO RIVAL THE STOVE INDUSTRY IN A SHORT TIME. THE WEHRLES, KNOWING THE DRIFT OF THE TOWN WESTWARD. HAVE BOUGHT MANY ACRES JUST WEST OF THE CITY, AND THEY WILL MAKE MONEY ON THE INVESTMENT. A NEW STEEL PLANT FOR THE WEST END IS ASSURED.

PEOPLE WHO BOUGHT LOTS IN THE WEHRLE ADDITION TO HELP BRING ABOUT THE ENLARGEMENT OF THE FACTORY HAVE ALL FOUND THEIR INVESTMENT A PROFITABLE ONE. MANY HAVE SOLD THEIR LOTS AT ADVANCED PRICES AND NOW WISH THEY HAD NOT SOLD.

THE WINTERMUTE PLACE. JUST WEST OF THE CITY LIMITS, NORTH OF IDLEWILDE PARK, AND A FEW STEPS SOUTH OF THE NEWARK & GRANVILLE ELECTRIC STREET RAILWAY, HAS JUST BEEN DIVIDED INTO ONE HUNDRED LOTS, EACH 40 TO 45 BY 140 FEET. THE PROPERTY HAS BEEN NICELY GRADED AND LAID OUT WITH FINE, LEVEL, BROAD STREETS AND ALLEYS, MAKING CONVENIENT ACCESS TO ANY AND ALL PARTS OF THE ADDITION.

THESE LOTS WILL BE ON THE MARKET ON SATURDAY, APRIL 22ND, AND WILL BE SOLD AT PRICES THAT WILL MAKE THEM MOVE QUICKLY. WE PREFER TO SELL THEM CHEAPLY AND GIVE EVERY PURCHASER A BARGAIN RATHER THAN TO HOLD THEM AND DELAY THE SALE FOR A YEAR OR MORE. WE NEED THE MONEY AND FOR THAT REASON HAVE DECIDED TO FIX PRICES THAT WILL ATTRACT BUYERS AT ONCE.

HERE IS AN OPPORTUNITY TO SECURE A SPLENDID BUILDING LOT AT A BARGAIN. EVEN IF YOU LET THE LOT REMAIN UNIMPROVED. IT WILL RAPIDLY INCREASE IN VALUE. IMPROVE IT AND IT WILL GROW INTO MORE MONEY MORE RAPIDLY. HERE IS A CHANCE FOR THE INVESTOR AND FOR THE HOMESEEKER. PUT YOUR IDLE MONEY INTO REAL ESTATE IN A GROWING TOWN. YOUR MONEY DEPOSITED IN A LOT CANNOT GET AWAY FROM YOU.

THE BIG FACTORIES ARE IN THE WEST END AND THE GOOD FACTORY SITES ARE ALL IN WEST NEWARK A STEEL PLANT IS TO BE BUILT UPON THE SHIDE FARM. THE T. & O. C. ROAD WILL BE IN WEST NEWARK BEFORE LONG.

BUYERS WILL HAVE NO INTEREST OR TAXES TO PAY UNTIL THE DEED IS TRANSFERRED TO THE BUYER.

VISIT THE WINTERMUTE ADDITION TOMORROW OR SOME DAY DURING THE COMING WEEK AND SEE THE LAND. THE GRADING IS ALMOST FINISHED. YOU CAN SEE THE PROPERTY YOURSELF AND BE BETTER ABLE TO JUDGE ITS VALUE.

Agents will be on the ground from 1 to 5 p. m. all the coming week to answer questions. Positively no lots will be sold or reserved until Saturday, April 22, 1905.

JOHN A. WINTERMUTE.

Dear Sir: Please ask your WIFE, DAUGHTER or SISTER to Read MY FREE Offer.

WISE WORDS TO SUFFERERS

From a Woman of Notre Dame, Ind.

I will mail, free of any charge, this Home Treatment with full instructions and history of my own case to any lady suffering with female trouble. You can cure yourself at home without the aid of any physician. It will cost you nothing to give the treatment a trial, and if you decide to continue it will only cost you about 12 cents a week. It will not interfere with your work or occupation. I have nothing to sell. Tell other sufferers of it—This is all I ask. It cures all, young or old.

☞ If you feel a bearing-down sensation, sense of impending evil, pain in the back or bowels, creeping feeling up the spine, a desire to cry frequently, hot flashes, weariness, frequent desire to urinate, or if you have Leucorrhea (Whites), Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Tumors or Growths, address **Mrs. M. Summers** for the Free Treatment and Full Information. Thousands besides myself have cured themselves with it. I send it in plain wrappers.

TO MOTHERS OF DAUGHTERS I will explain a simple Home Treatment which speedily and effectually cures Leucorrhea, Green Sickness and Painful or Irregular Menstruation in young ladies. It will save you anxiety and expense and save your daughter the humiliation of explaining her troubles to others. Plumpness and health always result from its use.

Wherever you live I can refer you to well known ladies of your own State or county who know and will gladly tell any sufferer that this Home Treatment really cures all diseased conditions of our delicate female organism, thoroughly strengthens relaxed muscles and ligaments which cause displacement, and makes women well. Write today, as this offer may not be made again.

"It is impossible for me to find sufficient words to express my gratitude for the good your remedies have done me, as they cured me of a severe case of falling of the womb, and I would be pleased to tell anyone, who would care to write to me, of the superior merits of this Home Treatment." MRS. LILLIAN SHARER, 200 Lincoln Ave., Canton, Ohio.

"After a few days' use of your Home Treatment, I was completely relieved of Ovarian soreness, bearing-down sensation and pruritis, which had troubled me for many months." MRS. GEO SWAIN, R. D. No. 2, Eaton, Ohio.

"From childhood I had suffered from Leucorrhea, which kept me weak, with bearing-down pains, backache and soreness. Nothing I could take did any good till I used your treatment, which cured me, and I both look and feel quite well now." MRS. B. EICHORN, 644 So. Chestnut St., Piqua, Ohio.

If a Cow gave Butter

mankind would have to invent milk. Milk is Nature's emulsion—butter put in shape for digestion. Cod liver oil is extremely nourishing, but it has to be emulsified before we can digest it.

Scott's Emulsion

combines the best oil with the valuable hypophosphites so that it is easy to digest and does far more good than the oil alone could. That makes Scott's Emulsion the most strengthening, nourishing food-medicine in the world.

Popular Coshocton Minister Will Address Y. M. C. A. Meeting Sunday on "Knowing and Doing."

Rev. Charles E. Clark, the popular pastor of the M. E. church at Coshocton, comes to Newark, Sunday, to address the men's meeting at the Y. M. C. A.

Mr. Clark is a very able speaker and exceedingly popular among his own people. He will, no doubt, have something excellent for the men of Newark tomorrow. All are invited.

KING'S DAUGHTERS

At a Special Meeting Held in Presbyterian Church Friday Night Elected Officers.

A special called meeting of the County Union of the King's Daughters was held in the parlors of the Second Presbyterian church on Friday evening. The following officers were elected for the ensuing year:

Chairman, Miss Sadie Brown.

Reading Secretary, Miss Lucy Connell.

Treasurer, Miss Lyon of Granville.

County Secretary, Mrs. John Woolson.

AN UNUSUAL OPPORTUNITY.

Wiles-Erman will pay back your money if Pepsikola fails to cure dyspepsia. "Never in the history of this store," said one of the above druggists to a representative of wholesale drug house, "has there been so great a demand for a new remedy as there is just now for Pepsikola."

Newark people are coming in every day inquiring if it really is true that we sell Pepsikola with the understanding it will cure dyspepsia or pay back the money." "Of course this guarantee plan is quite unusual but we do just as we agree and we will hand back your quarter without the least argument if you are not decidedly benefited." "As a matter of fact," continued the druggist, "not one person in fifty has asked for their money, and it may surprise you to know at least a dozen within the last ten days have been in to tell us how much they have been relieved and how glad they are to know at last there is a remedy that really will cure indigestion and dyspepsia."

Pepsikola braces up and tones every nerve and fibre, helps digest the food, puts new life into the digestive organs, improves the appetite, clears up the complexion, cures biliousness, dizzy spells, coated tongue and sick headache.

Try it for ten days, and if you don't see a big improvement step in and tell Wiles-Erman & Co., and they will hand back your money cheerfully and without argument. tts-tf

CATARRH, FOUL BREATH

If You Continually K'hawk and Spit and There is a Constant Dripping From the Nose Into the Throat, If You Have Foul, Sickening Breath, That is Catarrh.

CURED THROUGH THE BLOOD BY B. B. B.

Is your breath foul? Is your voice husky? Is your nose stopped? Do you snore at night? Do you sneeze a great deal? Do you have frequent pains in the forehead? Do you have pains across the eyes? Are you losing your sense of smell? Is there a dropping in the throat? Are you losing your sense of taste? Are you gradually getting deaf? Do you hear buzzing sounds? Do you have ringing in the ears? Do you suffer with nausea of the stomach? Is there a constant bad taste in the mouth? Do you have a hacking cough? Do you cough at night? Do you take cold easily? If so, you have catarrh.

Catarrh is not only dangerous in this way, but it causes ulcerations, death and decay of bones, loss of thinking and reasoning power, kills ambition and energy, often causes loss of appetite, indigestion, dyspepsia, raw throat and reaches to general debility, idiocy and insanity. It needs attention at once. Cure it by taking Botanic Blood Balm (B. B. B.). It is a quick, radical, permanent cure because it rids the system of the poison germs that cause catarrh. Blood Balm (B.B.B), purifies the blood, does away with every symptom, giving strength to the entire mucus membrane, and B.B.B. sends a rich, tingling flood of warm, rich, pure blood direct to the paralyzed nerves, mucus membrane bones and joints, giving warmth and strength just where it is needed, and in this way making a perfect, lasting cure of catarrh in all its forms.

DEAFNESS

If you are gradually growing deaf or are already deaf or hard of hearing, try Botanic Blood Balm (B. B. B.). Most forms of deafness or partial deafness are caused by catarrh, and in curing catarrh by B. B. B. thousands of men and women have had their hearing completely restored.

B. P. O. E.

The meeting of the National Lodge of Elks this year will be at Buffalo, N. Y., beginning on July 10. The time is scarcely three months away, and Elks lodges all over the country for some time past have been making preparations to attend this great national event. Buffalo, the site of the convention, presents numerous extraordinary attractions. Its nearness to the lakes and to Niagara Falls, the beauty of the city itself, the liberality of the citizens in entertaining and the fact that $60,000 have already been raised for the entertainment of the antlerd visitors this year, makes the approaching convention one of unusual attractiveness. Conservative estimates place the attendance at the convention at from 75,000 to 100,000, and the greatest times of all the great time of the great times ever had by the Elks is expected.

The members of Newark lodge are making arrangements to be well represented at Buffalo in July, and, without doubt there will be a good attendance from No. 391.

Modern Woodmen of America.

Cedar Camp, No. 4727, M. W. of A., met in regular session on Wednesday night with 119 members present. Five applications for membership were received, balloted on, and elected. Jas. Roberts, Geo. H. Place, Edgar C. Wyly and Edward Burkholder were adopted as benefcial members of Cedar Camp. Neighbor N. C. Sherburne was appointed to procure a speaker for the next meeting and Neighbor B. F. McDonald was appointed to procure some good singing. Neighbors J. P. Lamb and Dr. J. G. Shirer were reported as improving. Neighbor W. Hainesworth, who was very sick on Stansberry street, died Wednesday morning. Neighbor Hainesworth joined the Modern Woodmen on June 6, 1901, and held a policy in the society for $1,000. This makes the second death that has occurred in Cedar Camp this year. E. C. Richardson, chief forester of Cedar Camp has selected the sixteen men that will represent Cedar Camp at Milwaukee, Wis., in June, and will begin drilling them for the competitive drills to be held there. Neighbor N. C. Sherburne is in Chillicothe, Ohio, in the interest of Woodcraft. The new roster of the membership is out and every neighbor should procure one. All neighbors who do not receive the Modern Woodman paper, are requested to notify the clerk at once, so that their names may be sent to the head office and be put on the mailing list. District Deputy W. S. Brandriff is in Pataskala, Ohio, in the interest of Woodcraft.

Camels.

Monarch lodge No. 66, held a very interesting session [illegible] evening night and conferred the [illegible] degree on Brother Jesse Coffman. [illegible] degree on Brothers Coffman and Steele, and the fifth degree on Brothers Coffman, Steele, Drake and Dewar. The degree work was much enjoyed by the candidates and members present.

The degree team is being reorganized and all those who have handed their names in for the new team, are urged to be present at the lodge hall on Sunday afternoon at 2 o'clock, at which time the captain of the team, Mr. W. H. Cocanour, will assign positions and instruct in degree work. The team will hold a lawn fete some time in May and will add a great deal to the social status of the Camels.

The new membership contest is now on. Brothers Frank Belcher and Rollin F. Williams are the respective captains of the two teams and both teams are going to put up a stiff fight for first place. A gold watch is offered as the first prize in this contest, and every Camel will hustle to secure it. The other four prizes are worth working for, and in addition to these six cash prizes, every member of the winning team will receive two dollars for each candidate taking the seventh degree while the members of the losing team will receive but one dollar for each candidate.

Brother Dr. Shirer was reported improved but continued under the care of the lodge. The boys will be very glad to see Brother Shirer's face back in the lodge room again.

The committee on carnival reported work progressing and the Camels' carnival will be a red letter event this summer.

All Camels awaiting the third degree are asked to be present for the same on next Tuesday evening. Let ery member of the lodge join in this contest for members and give Monarch lodge a big boost. A large attendance is requested next Tuesday night.

Masonic.

The New Home Masonic Lodge at Hanover will be inspected on next Wedsesday night, at which time several candidates will be raised to the rank of Master Mason. Refreshments will be served at the close of the meeting, and a good social session will be had. A number of Newark Masons expect to attend the meeting as the trip can be made without difficulty now over the Newark & Zanesville Electric Railway.

Newark lodge F. & A. M. No. 97 held a meeting last night at which the entered apprentice degree was conferred on four candidates. There was a large attendance.

The Master Mason's degree will be conferred on the 21st, at which time there will be inspection and a banquet will be served.

N. A. S. E.

Miller Association, No. 10, National Association of Stationary Engineers, will meet in regular sesison Sunday afternoon at 2 p. m. This will be a meeting of unusual interest to the engineers of this city and should be well attended. Mr. Author G. Hall, formerly of Cincinnati, but who is now with the Wehrle company of this city, in the capacity of mechanical and electrical engineer, has kindly consented to deliver a series of lectures on engineering and electrical subjects, before the members of No. 10. The first of the series will be delivered Sunday, and it is urgently requested that every member of the N. A. S. E. who is in the city on that day be present. J. A. McFarland, Secretary; C. W. Allen, President.

Eagles.

The local Aerie of Eagles held an important meeting on Friday night, and it was a fraternal one in every particular. There are now 461 members in good standing. Several applications for membership were received and the membership is constantly increasing, which indicates the strength of the organization.

A. O. H.

Local division No. 1 held a regular meeting on Friday night at their hall in the Ankele block. Nearly all the members and officers were present. No sick benefits have been paid for some months, the members having enjoyed unusually good health. Several applications for membership are now being considered. The different committees rendered their reports. All members are requested to attend the next regular meeting.

Red Men.

Minnewa tribe met on Friday night with all chiefs present. Several brothers were reported as being unable to follow the hunt. One application for membership was elected. After the regular council fire was quenched, a meeting of the Haymakers' Council was held to complete arrangements for conferring the Haymakers' degree next Tuesday evening. Word was received from the council at Zanesville that they would be present on that night 70 strong, and arrive on a special car at 7:30. They also report that they have captured seven or eight hoboes down on the Muskingum river and that they would bring them along and endeavor to teach them the art of haymaking. One of the tramps goes by the name of Ben Kelly and claims to be an undertaker by trade, and says that his coffin has already been ordered and that he wanted hay seed planted on his grave. Aunt Sarah wants all the boys to turn out in full haymaker costume on that night and meet at the hayloft promptly at 7 as a grand parade will be given upon the arrival of the special car from Zanesville. This will be the last time that the degree will be conferred until the cold weather sets in. All haymakers should be present and don't forget to bring your straw with you, as your quarterly dues at the [illegible] and must be paid.

Labor leaders are considering a proposition to erect a $1,000,000 temple of labor in Washington.

CANTATA GIVEN AT GRANVILLE

FOURTH NUMBER OF THE FESTIVAL GIVEN IN COLLEGE TOWN THIS WEEK.

Orchestra Proved Its Artistic Ability, and Chorus Work Was Especially Good—Program.

Granville, O., April 15.—The fourth number in the Granville Spring Festival was Cowen's "Rose Maiden," given by the Newark and Granville choruses of 200 voices and orchestra of 35, with Mr. Arthur T. Judson as director, and Mr. N. B. Yeardley, assistant director. The cantata was very beautifully rendered and too much praise cannot be given Mr. Judson for his efforts to make this last number of the festival the success which it was.

The soloists, Miss Farrar, Miss MacGregan, Freemantel and Mr. Tebbs appeared at their best and their singing was thoroughly enjoyed. The orchestra proved to the audience its artistic ability and the chorus work was especially good. The following was the program:
